

The Institute of Rural Health (IRH) was established to optimize the health and well-being of rural people and their communities. The IRH is:-

- An academic centre of excellence which identifies and addresses issues related to rural health and disseminates good practice
- A centre which is a resource for the UK, Europe and the international community
- A centre which specializes in the use of Information Technology, building on an international reputation already gained in the field of Telehealth
- A centre specializing in quality education and training

### Forthcoming study days :-
